

Norredatorp

Norredatorp is managed by Uppsala Student Union and gives students an opportunity to come close to nature for relaxation or study in peace and quiet in a secluded environment to a low cost. The resort is adapted both to work and parties and is open to all, all year for rental – members of Uppsala Student Union are entitled to a discount.

Norreda is located near the Norrsjö Lake in Funbo, 25 km from Uppsala. The Norrsjö lake is part of the cloverleaf-shaped lake system where you can also find the Marielund train station, where the Lennakatten working train museum stops, and the Fjällnora leisure centre, where you can rent canoes and cross-country ice skates.

Norredatorp is beautifully situated, with nature just around the corner and excellent opportunities for bathing - it has its own jetty, sauna and rowing boat, and barbecues ready for use. The Upplandsleden footpaths are located nearby, as well as other footpaths and ski tracks.

Norredatorp is a pleasant eighteenth-century agricultural holding with four fully equipped wooden buildings and a large, modern lounge cabin, adapted to all sorts of gatherings.

The Cabins of Norredatorp

Sportstugan (the lounge) is a large hall with a fireplace, sofas, tables and chairs for about sixty people; it also has a large kitchen with double stoves and sinks, a dishwasher, a large refrigerator and the equipment needed for sixty people. Further, it has a hallway with sofas, a mirror and coat hangers; and finally a veranda/porch with the capacity to sit and serve about twenty people.

Torpet has two stories. On the ground floor you'll find a kitchen with a fireplace, kitchen utensils for twelve, table and chairs, as well as a two-bed bedroom. Upstairs you'll find ten beds.

Ladan has a kitchen; a three-bed bedroom; a living-room with a dining area for five; a hallway with two beds; and a terrace at the back.

Sovstugan has three beds, a dining area, a refrigerator, two hotplates and kitchen utensils for four.

Visthuset also has two stories. On the ground floor you'll find two beds, a table, chairs and refrigerator, two hotplates and kitchen utensils for four. Upstairs you'll find two beds.

All beds in the cabins have a pillow and duvet or blanket. Guests must bring their own bedlinen (or a sleeping bag).

Visthuset and Sovstugan are not habitable in the winter and do not have running water. The equipment of the kitchens include a large water can with a tap, which can be filled from the pump behind Sovstugan.

Förrådet (the storehouse) houses among other things a shared freezer, oars and forks for the rowing boat, some life jackets, as well as a saw and axes. There could be wood in the woodshed, but we can't guarantee it.

Showers and toilets are located in a building between Sportstugan and the cabins. It is divided into two sections, with a shower, a changing room and two toilets in each part.

The sauna is located on the hill slope in direction of the lake, near the jetty, and has a shower.

Regulations

The person in whose name the booking was made is responsible for its guests. You should therefore inform all your guests of our rules. In the event of damage caused to the property the responsible person will be charged.

In order to maintain low prices, we ask that the guests clean the cabins. You should therefore make sure that the cabins are clean and in good order before the next guests arrive. Please remember to pick up litter outside and to put all pieces of equipment in their right place and in the right cabin. No pets are allowed inside the cabins.
